

Product Information ISO Class 4-5 Cleanroom Class 10-100 EU Grade A/B

# Super Polx<sup>®</sup> LW Cleanroom Laundered 100% Polyester Knit Wiper

Super Polx® LW is a knife cut cleanroom laundered wiper required for ISO Class 4 and above environments composed of 100% continuous filament polyester knit fabric. This combination of properties provides Super  $Polx^{\otimes}LW$  with the highest level of cleanliness, abrasion resistance and chemical compatibility required for ISO Class 4 and above environments and

applications requiring critical control of contaminants combined with superior performance.

# Economical bulk packaging available

# Benefits

Low particles, fibers, ions and non-volatile residue

Laundered & packed in ISO Class 4 cleanroom

100% continuous filament polyester knit

High abrasion resistance

**Key Attributes** 

Knife cut edge

- Chemically compatible with IPA, Acetone and other solvents
- Light weight with high sorbency
- Soft hand and edge for sensitive surfaces

#### Environmental

- · Complies with RoHS 2002/05 and REACH requirements
- Light weight, high absorbency design reduces landfill waste impact when compared to more traditional heavier weight designs

# Other ISO Class 4 and above knitted wipers

- Super Polx<sup>®</sup> 1200A
- Super Polx<sup>®</sup> SW
- Super Polx® 1200
- Super Polx<sup>®</sup> 1500

#### Applications

- · Designed for use in ISO Class 4 and higher cleanroom environments
- Designed for a high level of contamination control in critical processing applications
- Integrated circuit fabrication areas
- CD and DVD manufacturing operations
- Breakdown cleans in fab and suite construction
- Equipment wrap and wipe downs
- · Stencil and other print roll cleaning applications
- Steam autoclavable for aseptic applications
- Cleaning of medical device products
- Applying and removing cleaning and disinfecting solutions

#### Value Pack Option

The value pack option provides the same great performance in a more economical bulk packaging format.

#### **Pre-Wetted Option**

The same wiper material can be provided in pre-wetted formats for reduced VOC emissions, increased convenience, increased productivity, improved solvent control and cleaning protocol repeatability and reduced costs.

#### Sterile Validated Option

For aseptic processing areas, the same wiper material can be provided in a gamma irradiated validated sterile to a 10<sup>-6</sup> sterility assurance level. Dry and pre-wetted versions available.
